PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided first-level technical support to internal staff across EMEA and global locations, resolving **hardware** and **software** issues via telephone, virtual, and online channels.
- Managed the **onboarding and offboarding** lifecycle for new hires and departing employees, including account creation, hardware provisioning, and asset repurposing.
- Installed, diagnosed, and repaired **enterprise hardware**, software, and IT equipment, ensuring seamless operations for end-users and business functions.
- Analyzed assigned IT tickets, conducted **root cause analysis** on systems and hardware, and communicated resolutions through the ticketing system.
- Contributed to the creation and maintenance of **Knowledge Base articles** and IT process documentation to promote end-user self-service.
- Supported and managed **company phone devices** within EMEA, liaising with vendors and carriers for setup and configuration according to company standards.
- Assisted in the testing of new IT systems and services, documenting findings and providing feedback for process enhancement.

SKILLS

IT Support & End-User Services – Ticketing Systems, Remote Support, Hardware Provisioning, Software Installation, Account Management, Onboarding/Offboarding, IT Equipment Maintenance, Phone Device Support

Operating Systems & Platforms – Windows OS, macOS, Linux, Active Directory, Microsoft 365, Exchange Online, Intune MDM

Networking & Infrastructure – Basic Networking Concepts, Infrastructure Support

ITSM & Processes – Incident Management, Request Management, Change Management, Cybersecurity Best Practices, Privacy Best Practices

Data Analysis & Reporting – Interpreting Data, Analyzing Results, Ticket Volume Reduction, Service Enhancement Suggestions

AI Concepts – AI Concepts, Productivity Improvement, Troubleshooting Enhancement

PROJECTS

Enterprise IT Support Workflow Automation

- Automated routine IT support tasks including **new hire account setup** and **hardware pre-configuration** using Python scripting, reducing manual effort by approximately 40%.
- Developed custom scripts to streamline the **decommissioning process** for departing employees, ensuring secure data removal and timely asset retrieval, impacting an average of 15 departures per month.
- Created interactive troubleshooting guides and FAQs within a **Jira Service Desk** portal, aiming to deflect common support inquiries and improve first-contact resolution rates.

Global Employee Hardware Provisioning System

- Designed and implemented a streamlined process for shipping **company laptops** and hardware to new employees and existing staff across EMEA and other regions.
- Collaborated with **logistics partners** and internal procurement teams to manage inventory and ensure timely delivery of IT assets.
- Established clear documentation for **hardware setup** and initial configuration, reducing onboarding time for remote employees by an estimated 2 days.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
