HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot REST APIs** for core financial services platforms, handling approximately 500 requests per second during peak hours.
- Engineered robust **Hibernate/JPA** data access layers, optimizing complex SQL queries and schema migrations for relational databases supporting enterprise applications.
- Designed and implemented **JUnit and Mockito** test suites for Java applications, achieving over **85% code coverage** and reducing critical bugs by **30%** in the development cycle.
- Collaborated with product managers and business analysts to define technical requirements and estimate effort for new feature development within an Agile Scrum framework.
- Contributed to the design and implementation of **Python-based ETL pipelines** for data ingestion and transformation, processing datasets of up to **100GB**.
- Containerized applications using **Docker**, building and managing container images for deployment across development and staging environments.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing corrective actions to meet strict service level agreements.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, Spring Security, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Jira, Confluence

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Operating Systems – Linux, Shell Scripting

Methodologies – Agile, Scrum

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Re-architected legacy Java services into modular **Spring Boot microservices**, improving system resilience and enabling independent deployment cycles.
- Implemented a new data persistence strategy using **JPA and PostgreSQL**, reducing average query times for critical transaction data by **40%**.
- Developed comprehensive **RESTful APIs** with clear contracts for upstream and downstream system integrations, facilitating smoother data exchange across business units.

Automated Financial Reporting Pipeline (HCL Technologies)

- Built automated **Python ETL pipelines** to extract, transform, and load data from multiple enterprise systems into a central data warehouse.
- Developed scheduled reporting jobs using Python scripts to generate daily and weekly operational summaries for finance stakeholders.
- Integrated data validation checks within the pipeline to ensure data accuracy and integrity before final report generation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
