PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Resolved over **500 client queries** weekly via phone and remote support, maintaining high customer satisfaction scores for GP software systems.
- Troubleshot and resolved **hardware issues** including PCs, printers, and network connectivity for a diverse user base across multiple clinic sites.
- Collaborated with the **Development Department** to conduct user acceptance testing on new software versions, identifying and reporting over **30 potential issues** prior to release.
- Liaised effectively with the **hardware desk and field engineers** to coordinate on-site visits for complex technical problems requiring physical intervention.
- Ensured the highest level of communication and documentation for all **client queries, issues, and complaints**, contributing to a **15% reduction** in escalated tickets.
- Contributed to a culture of **continuous improvement** by documenting common troubleshooting steps and sharing best practices within the support team.
- Assisted in the migration of **customer data** to new system versions, ensuring data integrity and minimal disruption to clinical workflows.

SKILLS

Support Tools – SQL, Jira, Confluence, Ticketing Systems, Remote Dial

Operating Systems – Linux, Windows

Hardware Troubleshooting – PCs, Printers, Networks, Scanners

Software Support – GP Software, In-house Software, Application Troubleshooting

Customer Service – Client Query Resolution, Communication Skills, Interpersonal Skills, Customer Satisfaction, Team Player

PROJECTS

Healthcare Software Support Enhancement (HCL Technologies)

- Streamlined the **troubleshooting process** for a healthcare client's core clinical workflow software by developing a comprehensive knowledge base of common issues and resolutions.
- Implemented a structured approach to logging and tracking **client queries** using Jira, improving issue traceability and reducing average resolution time by **20%**.
- Collaborated with business analysts to gather feedback on user experience, contributing to the prioritization of feature enhancements for future software releases.

Customer Onboarding Playbook for Enterprise Software (MSc Project)

- Developed a detailed **onboarding playbook** for new enterprise clients adopting a complex software solution, outlining step-by-step installation, configuration, and initial user training.
- Created interactive guides and FAQs addressing common setup challenges, reducing initial support requests by an estimated **35%** for pilot users.
- Designed a feedback mechanism to collect user experience data during onboarding, informing iterative improvements to the software's initial setup flow.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
