PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the preparation of monthly and quarterly financial reporting packs for a multi-entity business, ensuring accuracy and timely delivery to senior leadership.
- Maintained general ledger integrity through meticulous recording of accruals, deferrals, intercompany transactions, and reclassifications across multiple legal entities.
- Supported group consolidation activities within a multi-currency operational framework, contributing to the accurate aggregation of financial data.
- Contributed to the preparation of statutory audit requirements, liaising with external auditors on key financial elements and providing necessary documentation.
- Partnered with Supply Chain and Commercial teams to provide financial insights that supported operational decision-making and strategic growth initiatives.
- Participated in budgeting and forecasting cycles, gathering data and contributing analysis to inform financial planning for upcoming fiscal periods.
- Assisted in strengthening internal controls and process documentation as the business scaled, ensuring adherence to financial standards and best practices.

SKILLS

Accounting & Reporting – Group reporting, Technical accounting, General ledger, Accruals, Deferrals, Intercompany, Consolidation, IFRS, FRS 102

Compliance & Audit – Statutory audit preparation, External auditor liaison, VAT, Intrastat, Tax compliance

Process Improvement – Automation initiatives, Process improvement, Control strengthening

Core Finance – Financial analysis, Reconciliations, Multi-entity, Multi-currency

PROJECTS

Group Consolidation Enhancement Project

- Developed and implemented enhancements to the group consolidation process, improving data accuracy for intercompany eliminations across 5 entities.
- Automated the reconciliation of intercompany balances using Python scripting, reducing manual effort by approximately 40% and cutting reconciliation time from 3 days to 1 day.
- Documented new consolidation procedures and trained two junior finance team members on the updated workflows and system usage.

Financial Reporting Automation Initiative

- Designed and built a series of automated reports using SQL and Python (pandas) to streamline the generation of monthly financial statements for subsidiary entities.
- Integrated data from multiple sources including ERP system exports and operational databases, ensuring data integrity through validation checks.
- Reduced the time required for monthly management reporting pack assembly by an estimated 20%, allowing for earlier analysis and decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
