# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Engineered and maintained **Java Spring Boot** microservices, implementing **REST APIs** for inter-service communication and data exchange, processing approximately **1,500 requests per minute** during peak hours.
- Developed and optimized **Hibernate** queries and managed the persistence layer for enterprise applications, ensuring efficient data retrieval and manipulation across relational databases and reducing query execution times by **18%**.
- Wrote comprehensive **JUnit** tests and employed **Mockito** for mocking dependencies, achieving over **85% code coverage** for critical application modules and improving code quality.
- Collaborated with development and product teams to define and implement **operational readiness** criteria, conducting system design consulting and capacity planning for new service launches.
- Analyzed **system availability, latency, and health** metrics using **Splunk** and **Dynatrace**, identifying and resolving production incidents to minimize business impact and ensure adherence to SLAs.
- Streamlined **deployment automation** processes by enhancing **Jenkins** pipelines, reducing manual intervention and cutting deployment times from 45 minutes to **18 minutes**.
- Containerized applications using **Docker** and deployed them onto **AWS EC2** instances, managing configurations and ensuring consistent environments across development and production.

## SKILLS

**Languages** – Java, Python, SQL, R, JavaScript

**Frameworks/Libraries** – Spring Boot, Hibernate, Spring, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

**Cloud/DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Shell Scripting

**Databases** – PostgreSQL, MySQL, Oracle

**Observability/Monitoring** – Splunk, Dynatrace, CloudWatch

**BI/Analytics** – Power BI, Tableau, DAX, Power Query, RStudio

**Methodologies** – Agile, Scrum, CI/CD, Incident Management, Change Management

## PROJECTS

### Enterprise Java Application Modernization

- Refactored legacy Java services into modular **Spring Boot** microservices, improving system maintainability and enabling independent deployments.
- Integrated **Hibernate** as the primary ORM for data persistence, optimizing database interactions and enhancing application performance by **22%**.
- Developed **RESTful APIs** for data access and business logic, ensuring robust error handling and clear documentation for downstream consumers.

### Automated Production Monitoring & Alerting System

- Built a **Python**-based system to aggregate logs and metrics from multiple Java applications using **Splunk** APIs for enhanced real-time monitoring.
- Configured dynamic alerting thresholds and notification channels in **Dynatrace**, reducing critical incident detection time by approximately **30%**.
- Developed automated data enrichment pipelines using **pandas** to add business context to operational alerts, aiding faster root cause analysis.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
