PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported the annual budgeting and periodic forecasting processes for retail operations, gathering key business inputs and assumptions to inform financial models.
- Prepared financial models projecting revenue, costs, and cash flow, aligning outputs with SAP/BPC Controlling tool for consolidation into group-level reporting.
- Developed and maintained daily, weekly, and monthly management reports and presentations for senior leadership, ensuring timely and accurate performance analysis.
- Analyzed monthly financial results against budget and prior year, identifying key variances and providing clear, actionable commentary to department heads.
- Partnered with department heads and store managers to provide financial insights that supported investment appraisals, business cases, and sensitivity analysis.
- Identified opportunities to enhance reporting efficiency and accuracy, contributing to the implementation of finance system improvements and data quality initiatives.
- Collaborated with finance teams during month-end close processes to align FP&A; outputs with statutory reporting and financial accounts.

SKILLS

Financial Planning & Analysis – Budgeting, Forecasting, Financial Modelling, Variance Analysis, KPI Tracking, Investment Appraisal, Sensitivity Analysis, Business Cases

Reporting & Consolidation – Management Reporting, Financial Reporting, Statutory Reporting, Group Consolidation, Month-End Close

ERP & Finance Tools – SAP, BPC Controlling, Excel (Advanced Formulas, Pivot Tables, Modelling)

Business Operations – Retail Operations Support, Multi-Site Environment, Stakeholder Management, Process Improvement, Data Quality

Core Competencies – Analytical Mindset, Attention to Detail, Commercial Awareness, Problem-Solving, Independent Work, Relationship Building

PROJECTS

Retail Financial Performance Dashboard (HCL Technologies)

- Developed a comprehensive financial performance dashboard using **Power BI** to visualize key performance indicators (KPIs) for retail operations.
- Engineered **DAX measures** and complex data models to track revenue, cost of goods sold, and operational expenses, supporting business unit managers.
- Automated ETL processes using **Power Query** to ingest data from disparate sources, reducing manual data preparation time by approximately **40%**.

Automated Budgeting & Forecasting Support Tool (HCL Technologies)

- Created **Python scripts** to automate the aggregation of departmental budget inputs and forecast assumptions, streamlining the data collection process.
- Built REST APIs using **Flask** to facilitate data exchange between the Python tool and an internal data warehouse, ensuring data integrity.
- Implemented basic data validation checks within the scripts to flag inconsistencies in submitted financial data before consolidation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
