HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained enterprise Java applications using **Spring Boot**, implementing REST APIs for cross-service data exchange and contributing to core feature development.
- Engineered **Python** scripts to automate ETL processes and generate scheduled reports, handling data extraction and transformation for financial operations reporting.
- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring SLA adherence using **Splunk** and **Dynatrace** for monitoring and root cause analysis.
- Contributed to portfolio analysis by monitoring existing and prospective investments, focusing on asset allocation and performance metrics, directly supporting senior investment professionals.
- Collaborated with the Investment team and senior analysts on a project to enhance investment monitoring capabilities, integrating data from multiple asset classes.
- Gathered and documented requirements for new investment project features, working closely with business analysts and portfolio managers to ensure alignment with strategic objectives.
- Containerised Java Spring Boot microservices using **Docker** and deployed them to **AWS EC2** instances, managing configurations and ensuring environment stability.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Investment Portfolio Monitoring Dashboard (HCL Technologies)

- Developed interactive dashboards using **Power BI** to visualize key investment portfolio metrics, including asset allocation and performance trends for an enterprise client.
- Built **Python** data pipelines to ingest and process transaction data from various sources, preparing it for analysis and reporting within the financial operations dashboard.
- Collaborated with business stakeholders to refine dashboard requirements and deliver actionable insights, directly supporting their investment decision-making processes.

Automated Financial Reporting Service (HCL Technologies)

- Engineered an automated reporting service using **Java Spring Boot** and **SQL**, reducing manual report generation time by approximately 40% for the financial operations team.
- Implemented data validation checks and error handling within the reporting pipeline to ensure data integrity and accuracy for regulatory compliance.
- Scheduled and managed report generation using cron jobs on **Linux**, ensuring timely delivery of critical financial summaries to operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
