PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported Senior Project Surveyors by preparing detailed **budget** documentation and tracking **procurement** progress for multiple construction projects, ensuring financial alignment from inception.
- Contributed to the preparation of **tender packages** and actively participated in subcontractor meetings, documenting key decisions and action items to facilitate smooth project progression.
- Assisted in the generation of **valuation** and **reconciliation reports**, ensuring accuracy and timeliness for project financial reviews and client submissions.
- Developed Python scripts to automate the extraction and aggregation of project data from disparate sources, reducing manual reporting time by approximately **30%** for the operations team.
- Designed and implemented RESTful APIs using **Java Spring Boot** to integrate disparate enterprise systems, improving data flow efficiency between financial and operational platforms.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, performing root cause analysis and implementing fixes to maintain service level agreements.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, establishing basic CI/CD pipelines with **Jenkins** for streamlined code deployment.

SKILLS

Construction & Quantity Surveying – Budgets, Procurement Trackers, Cash Flow Preparation, Tender Packages, Cost Reports, Valuations, Reconciliation Reports

Programming Languages – Python, Java, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Jira, Confluence, Agile, Scrum, REST APIs, Linux Shell Scripting

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

PROJECTS

Construction Project Cost Management Tool (HCL Technologies)

- Developed a **Python**-based application to assist in tracking project costs and managing procurement data for construction projects, integrating with **PostgreSQL**.
- Engineered automated reporting features that generated monthly cost summaries and variance analyses, reducing manual effort by **40%** for project managers.
- Designed a user-friendly interface for inputting and reviewing financial data, ensuring data integrity and facilitating easier collaboration with finance stakeholders.

Automated Financial Reporting Suite (HCL Technologies)

- Built a suite of **Python** scripts to automate the generation of financial reconciliation reports by querying **Oracle** and **MySQL** databases.
- Implemented data validation checks to ensure accuracy and consistency across reports, decreasing data discrepancy errors by approximately **20%**.
- Scheduled report generation using Linux cron jobs, delivering timely financial insights to the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
