HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed product specifications to design and execute comprehensive test cases, ensuring alignment with system requirements for enterprise software.
- Set up and maintained dedicated test environments, configuring hardware and software prerequisites for manual test case execution and validation.
- Executed manual and regression test suites, meticulously documenting all detected issues and defects with detailed steps for reproduction.
- Performed root cause analysis on reported defects, tracing issues back to their underlying problems within the software stack to inform resolution efforts.
- Provided technical documentation and training materials for test and business functions, clarifying complex system behaviours and testing methodologies.
- Collaborated with cross-functional engineering teams and test managers to integrate QA findings into the broader development lifecycle.
- Managed production support for enterprise Java/.NET applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring SLA adherence.

SKILLS

Testing Methodologies – Manual Testing, Regression Testing, Test Case Execution, Root Cause Analysis

Environment Setup – Test Environment Configuration, Hardware Testing, Software Testing

Tools & Technologies – Jira, Confluence, Git, Jenkins, Linux

Programming Languages – Java, Python, SQL

Cloud & Containerization – AWS, Docker

Observability – Splunk, Dynatrace, CloudWatch

PROJECTS

Enterprise Application QA Framework Development

- Designed and implemented a structured QA framework for enterprise applications, standardizing test case documentation and execution procedures.
- Integrated **Jira** and **Confluence** into the testing workflow to enhance defect tracking, reporting, and knowledge sharing across teams.
- Authored comprehensive test plans and reports for multiple software releases, ensuring thorough coverage of functional and non-functional requirements.

Automated Test Environment Setup Scripting

- Developed Python scripts to automate the setup and configuration of testing environments, reducing manual setup time by approximately 40%.
- Scripted environment provisioning on **AWS EC2** instances, ensuring consistent and repeatable test bed deployments.
- Integrated shell scripting for log analysis and system health checks within the automated environment setup process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
