PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production support and SLA adherence for enterprise Java/.NET applications, responding to P1/P2 incidents using **Splunk** and **Dynatrace** for diagnostics.
- Automated data extraction and transformation tasks using **Python** scripts, developing ETL pipelines that processed approximately 50GB of data daily for reporting.
- Executed complex **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation and ad-hoc analysis, supporting business intelligence initiatives.
- Developed and maintained **Java Spring Boot** REST APIs, contributing to the evolution of microservices that handled over 1,500 requests per minute.
- Coordinated with multi-disciplinary design teams and clients to manage the production of tender documents and reports, ensuring clarity and accuracy in all deliverables.
- Contributed to sprint planning and technical estimations within an Agile/Scrum framework, ensuring timely delivery of project milestones.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing environment setup time by 40%.

SKILLS

Languages – Java, Python, SQL, R, Bash

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum, CI/CD

PROJECTS

HCL Financial Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** for a financial services client by developing **Python** scripts to automate the reconciliation of transaction data, reducing manual processing by 30%.
- Implemented new monitoring alerts in **Splunk** for failed payment messages, enabling operations teams to identify and resolve issues 2 hours faster on average.
- Collaborated with business analysts to refine transaction flow visualizations, improving the clarity of operational data for key stakeholders.

MSc Applied Data Analytics: Rail Demand Forecasting

- Developed a **Python**-based data pipeline using **pandas** to ingest and clean historical passenger data from multiple sources for a rail demand forecasting project.
- Built interactive **Power BI** dashboards to visualize forecast accuracy and key influencing factors, presenting findings to university faculty and peers.
- Applied statistical analysis techniques in **R** to explore correlations between weather patterns and passenger volume, informing model development.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
