HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Assisted in the **design and analysis** of structural solutions for building projects, focusing on reinforced concrete and steelwork components.
- Prepared detailed **structural calculations** and technical reports, ensuring clarity and accuracy for project documentation and client review.
- Contributed to the development of **conceptual design options** and feasibility studies, evaluating multiple approaches for structural integrity and material efficiency.
- Supported site visits and construction activities, documenting observations and liaising with site teams to address structural queries.
- Participated in **multidisciplinary team** collaborations, integrating structural designs with architectural, civil, and geotechnical specialists.
- Supported project planning and programme management efforts, assisting in the coordination of tasks and client interaction for timely delivery.
- Explored the application of **BIM tools** for project delivery, contributing to the visualisation and coordination of structural elements within a broader project model.

SKILLS

Engineering Discipline – Structural Engineering, Civil Engineering, Buildings, Infrastructure

Design & Analysis – Structural Calculations, Concept Design, Feasibility Studies, Reinforced Concrete Design, Steelwork Design

Project Delivery – Construction Support, Site Inspections, Site Visits, Project Planning, Programme Management, Client Interactions

Digital Tools – BIM Tools, Digital Engineering

Sustainability – Sustainable Design, Carbon Reduction, Resilience Assessments

PROJECTS

Structural Analysis for Urban Development

- Performed **structural analysis** on building designs for a mixed-use urban development project, utilizing principles of reinforced concrete and steel.
- Developed detailed **technical reports and drawings**, clearly outlining structural loads, material specifications, and construction methodologies.
- Collaborated with architectural teams to integrate structural requirements, ensuring aesthetic goals were met while maintaining design integrity.

Infrastructure Resilience Assessment

- Assessed the **resilience** of existing infrastructure components against environmental stressors, focusing on material degradation and load-bearing capacity.
- Contributed to **carbon reduction** strategies by evaluating alternative materials and construction techniques for improved sustainability metrics.
- Documented findings and recommendations in a comprehensive report for stakeholders, highlighting areas for potential structural enhancement.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
