PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained automated test suites for web, mobile, and API services, focusing on functional and regression testing using **Python** and **Playwright**.
- Integrated automated tests into the **CI/CD pipeline**, enabling daily execution and providing rapid feedback on new releases.
- Performed manual and automated testing of new platform features, identifying and reporting defects with detailed, actionable bug reports in **Jira**.
- Collaborated with development and product teams to analyse requirements, identify potential risks, and ensure quality was embedded throughout the development lifecycle.
- Executed API and integration tests for REST APIs, validating JSON payloads and authentication mechanisms using **Postman**.
- Contributed to the continuous improvement of QA processes by investigating test failures and proposing enhancements to test coverage and automation strategies.
- Containerised QA automation environments using **Docker**, ensuring consistent execution across development and staging.

SKILLS

Testing Frameworks – Playwright, Cypress, Selenium, Appium

API Testing – REST APIs, JSON, Postman

Programming Languages – Python, JavaScript, TypeScript, Java

Tools & Platforms – Jira, Git, Xray, Docker, AWS, Jenkins

Testing Methodologies – Functional Testing, Regression Testing, End-to-End Testing, Exploratory Testing, Integration Testing

Development Practices – Agile, Scrum, CI/CD

PROJECTS

SaaS Platform QA Automation Framework

- Developed a reusable automated testing framework using **Python** and **Playwright** to cover core functionalities of a web-based SaaS application.
- Implemented end-to-end test scenarios that validated user workflows from initial login through to data submission and report generation.
- Integrated the framework with the **CI/CD pipeline**, automating test execution on every code commit and reducing manual testing effort by approximately 40%.

API Integration Testing Suite for Fleet Management

- Built a suite of automated tests for REST APIs used in a fleet management system, focusing on data ingestion and status updates.
- Validated API responses, including JSON structures and authentication tokens, using **Python** and the **requests** library.
- Worked with development teams to ensure seamless integration between backend services and the mobile client application.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
