PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported enterprise customers through the full sales cycle, from initial discovery calls to technical validation and proposal stages, demonstrating the value of the **Auth0 platform**.
- Partnered with sales teams as the primary technical counterpart, enabling customers to validate the potential of **Auth0's CIAM solutions** and integrate them into existing architectures.
- Designed and executed outcome-driven **Proof of Concepts (POCs)** for prospective clients, showcasing how Okta addresses complex identity and access management challenges.
- Developed and delivered impactful technical presentations and live product demonstrations to diverse audiences, including **developers, product managers, and senior executives** across various industries.
- Collaborated with customer engineering teams to integrate **Auth0's identity protocols** (e.g., OIDC, OAuth) into their application stacks, ensuring seamless user authentication.
- Expanded knowledge of **identity and access management**, cloud security concepts, and emerging technologies through continuous learning and hands-on exploration of the Okta product suite.
- Containerized and deployed backend services using **Docker and AWS Lambda**, managing application configurations and ensuring reliable execution for customer-facing features.

SKILLS

Identity & Access Management – Auth0, Okta, CIAM, SAML, OIDC, OAuth, FIDO, SCIM, LDAP, MFA

Cloud Platforms – AWS, EC2, S3, Lambda, CloudWatch

Development Tools & Languages – Python, Java, Spring Boot, JavaScript, Node.js, Docker, Git, Jenkins

Databases – PostgreSQL, MySQL, Oracle

Security Concepts – Phishing, Privilege Escalation, Cybersecurity

Soft Skills – Presentation, Communication, Problem-Solving, Customer Engagement, Technical Demos

PROJECTS

Customer Identity Integration for Enterprise SaaS

- Developed a proof of concept integrating Auth0's **OIDC authentication flows** into a simulated enterprise SaaS application, demonstrating secure user onboarding for a pilot customer.
- Built **RESTful APIs using Python Flask** to manage user profiles and permissions post-authentication, supporting seamless integration with downstream customer services.
- Created technical documentation and a walkthrough guide for the customer's development team, detailing the integration steps and best practices for **Auth0 identity protocols**.

Secure API Gateway for Financial Services Dashboard

- Engineered a **Java Spring Boot microservice** to act as a secure API gateway for a financial services dashboard, managing authentication and authorization for internal users.
- Implemented **OAuth 2.0 flows** for token validation and secured communication between the gateway and backend services, ensuring data integrity and access control.
- Deployed the gateway service within a **Docker container on AWS EC2**, configuring Jenkins pipelines for automated build and deployment to staging environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
