PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided 1st level technical support for enterprise clients, identifying, evaluating, and prioritizing reported issues using **Jira**.
- Assigned and tracked customer tickets to resolution, coordinating progress between development teams and end-users to resolve issues promptly.
- Developed **Subject Matter Expertise** for assigned **Microsoft technology solutions**, including .NET and Azure environments, to aid in troubleshooting.
- Compiled internal reports on helpdesk status and statistics, preparing weekly and monthly service reports for clients using **Excel**.
- Executed daily service checks for internal and customer-related services, ensuring operational integrity and proactively identifying potential issues.
- Performed **QA** for support fixes prior to customer release, verifying functionality and adherence to requirements in a **hybrid onsite/remote** environment.
- Managed production support for enterprise Java applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring SLA adherence.

SKILLS

Support Tools – Jira, ServiceNow, MS Office

Cloud Platforms – Azure, AWS

Programming Languages – .NET, Java, Python, SQL

Microsoft Technologies – Power Platform, CRM

Operating Systems – Linux, Windows

Methodologies – Agile, Scrum

PROJECTS

Enterprise Application Support & Monitoring

- Managed production support for a suite of enterprise Java applications, focusing on **transaction monitoring** and operational alerting for failed messages, impacting approximately **1,500 daily transactions**.
- Automated routine system checks and data validation tasks using **Python scripting**, reducing manual effort by **20%** and improving data accuracy across reporting pipelines.
- Responded to and triaged P1/P2 incidents using **Splunk** and **Dynatrace**, collaborating with cross-functional teams to restore service within defined SLAs.

Client Onboarding & System Integration Support

- Supported the integration of enterprise business systems, including **ERP modules**, by performing cross-system data validation and coordinating change control management for system updates.
- Facilitated User Acceptance Testing (UAT) for system configuration changes, gathering feedback from business analysts and coordinating post-go-live support to ensure smooth transitions.
- Provided technical assistance during the onboarding of new clients to internal platforms, documenting common integration patterns and running follow-up sessions with client teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS
