HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the **SOC ticket queue**, triaging and responding to security alerts from tools like **MS Defender** and **Arctic Wolf**, identifying patterns to enhance detection rules.
- Collaborated with **infrastructure** and **development teams** to integrate security controls, focusing on evidence-based implementation for compliance within the Azure cloud environment.
- Contributed to the continuous improvement of the organization's **cyber security posture** by participating in regular threat modeling sessions and security reviews.
- Developed and executed **Breach and Attack Simulation** (BAS) assessments using **NEMESIS**, mapping identified attack vectors against the MITRE ATT&CK; framework.
- Automated routine security tasks and data analysis using **Python scripting**, reducing manual effort in log review and alert correlation by approximately **30%**.
- Applied knowledge of **Azure services**, cloud architecture, and security best practices to safeguard organizational assets and maintain a secure credit technology platform.
- Analyzed security events across networks, systems, and cloud environments using **SIEM** and **EDR/XDR** tools, identifying and remediating security vulnerabilities.

SKILLS

Security Tools – MS Defender, Arctic Wolf, NEMESIS, Aikido Security, RAPID7, Crowdstrike, SIEM, EDR/XDR, Vulnerability Scanners

Cloud Security – Azure, Cloud Architecture, Defensive Security Controls, Security Best Practices

Cyber Security Principles – Risk Management, Threat Detection, Incident Response, Threat Hunting, Detection Engineering, Cyber Defence Strategies, Security Operations

Frameworks & Methodologies – MITRE ATT&CK;, NIST, ISO 27001

Scripting & Automation – Python, PowerShell

General IT – Networks, Systems, Linux, Shell Scripting

Project Management – SLA Management, P1/P2 Incident Response, Change Management, Agile/Scrum

PROJECTS

Azure Security Control Implementation for Credit Platform

- Designed and implemented **Azure security controls** including network segmentation, access policies, and data encryption for a highly available credit management platform.
- Developed automated scripts in **Python** to monitor security configurations and alert on deviations from established baselines, improving compliance checks efficiency by **40%**.
- Collaborated with cross-functional teams to integrate security best practices into the CI/CD pipeline, ensuring secure deployments across the SaaS offering.

Security Operations Enhancement with Python

- Automated the analysis of security logs from **Splunk** and **CloudWatch** using **Python**, enabling faster identification of suspicious activities and reducing alert fatigue for the SOC team.
- Built custom dashboards within a **BI tool** (similar to Power BI) to visualize key security metrics and incident trends, aiding management in strategic decision-making.
- Contributed to incident response by developing scripts that correlated alerts from multiple security tools, reducing the mean time to identify by **~22%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
