HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** RESTful APIs for a financial operations dashboard, processing approximately **1,500 transaction events per minute**.
- Developed and maintained **JPA** entities and performed complex SQL queries against **PostgreSQL** and **Oracle** databases for data validation and reporting.
- Authored **Python** scripts to automate ETL processes for scheduled financial reports, reducing manual data compilation time by an estimated **15 hours per week**.
- Contributed to the full software development lifecycle, including **code reviews**, **sprint planning**, and defect resolution within an Agile/Scrum framework.
- Analyzed system logs using **Splunk** and **Dynatrace** to identify root causes for P1/P2 incidents, ensuring adherence to strict service level agreements.
- Managed system configuration changes and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring smooth post-go-live operations.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency across development and production environments.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, JPA, Hibernate, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Enterprise Financial Operations Dashboard (HCL Technologies)

- Developed core **Java Spring Boot** microservices to ingest, process, and display real-time transaction data for a financial services client, supporting **~3,200 monitored payment flows**.
- Implemented robust error handling and alerting mechanisms within the dashboard, reducing manual intervention for failed transaction messages by **40%**.
- Collaborated with business analysts and operations teams to gather requirements, conduct UAT, and provide post-implementation support for the payments processing workflows.

Automated Data Pipeline for ERP Reporting (HCL Technologies)

- Engineered **Python** scripts to extract, transform, and load data from multiple enterprise systems (including **PostgreSQL** and **Oracle**) into a data warehouse for scheduled reporting.
- Automated the generation and distribution of weekly operational reports, saving approximately **10 hours of manual effort** per reporting cycle.
- Integrated the pipeline with **Jenkins** for automated scheduling and execution, ensuring consistent data delivery to business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
