HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for core application features, ensuring adherence to SOLID principles and integrating with a PostgreSQL database.
- Developed and maintained **Hibernate** entities and JPQL queries for complex data persistence and retrieval operations, optimizing query performance for critical business workflows.
- Engineered **JUnit** and **Mockito** test suites for Java components, achieving over **85%** code coverage and significantly reducing production regressions.
- Participated in code reviews for **.NET 8 microservices** and **ASP.NET MVC** web applications, providing constructive feedback to enhance code quality and maintainability.
- Mentored two junior engineers on **RESTful API** design best practices and effective debugging techniques within an Agile Scrum framework.
- Developed and deployed **React** components and integrated modern JavaScript frameworks into existing web applications, improving user interface responsiveness.
- Containerized backend services using **Docker** and managed deployments to a local Kubernetes cluster, ensuring consistent environments across development and staging.

SKILLS

Backend Development – C#, ASP.NET MVC, WebAPI, .Net 8 Microservices, Java, Spring Boot, RESTful Services, Hibernate, JPA

Frontend Development – React, JavaScript, CSS

DevOps & CI/CD – Git, CI/CD, ArgoCD, Docker, Kubernetes, Jenkins

Observability – Metrics, Logs, Traces, Splunk, Dynatrace, CloudWatch

Databases – PostgreSQL, MS SQL, MySQL, Oracle, RavenDb

Methodologies & Practices – SOLID Principles, IoC, TDD, Agile, Scrum, Code Reviews

PROJECTS

Enterprise Java Microservices Modernization

- Developed a suite of **Java Spring Boot** microservices to replace legacy monolithic components, focusing on asynchronous communication patterns using a service bus.
- Implemented data access layers using **Hibernate** and PostgreSQL, ensuring data integrity and efficient querying for high-throughput transaction processing.
- Wrote comprehensive unit and integration tests using **JUnit** and Mockito, contributing to a stable and reliable service architecture.

Customer-Facing Web Application Performance Enhancement

- Optimized **React** frontend components and backend **WebAPI** endpoints for a client-facing portal, reducing page load times by an average of **30%**.
- Collaborated with business stakeholders to gather requirements for new feature implementations, ensuring alignment with user needs and product roadmap.
- Integrated enhanced logging and metrics collection for critical user flows, providing better visibility into application performance and user experience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
