PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and troubleshot end-user computing environments including **Windows 11** desktops, **Windows 10** laptops, and associated peripherals for a global enterprise.
- Resolved incidents and service requests via **ServiceNow**, documenting technical details, prioritizing issues, and escalating complex problems to senior engineers.
- Supported and configured **Microsoft 365** applications, including **Outlook** and **Exchange** functionality, user profiles, and data migration tasks.
- Provided **remote hands** assistance to infrastructure and networking teams, ensuring adherence to change control and security protocols for hardware deployments and maintenance.
- Collaborated with internal teams and external **software vendors** to ensure timely resolution of break/fix issues and maintain optimal application performance.
- Assisted with the maintenance, upgrade, and triage of user systems, office productivity equipment, and **business-critical applications**.
- Contributed to the development and refinement of desktop support procedures and provided **knowledge transfer** to junior technicians.

SKILLS

Operating Systems – Windows 11, Windows 10, Linux

Cloud & Collaboration – Microsoft 365, Exchange Online, Outlook, Teams

Endpoint Management – Active Directory, Enterprise Endpoint Management, Intune

Networking – Basic LAN/WAN Hardware and Administration

Ticketing Systems – ServiceNow, Jira

Hardware Support – Desktops, Laptops, Peripherals, Printers, Scanners, Mobile Devices

PROJECTS

Enterprise Desktop Support Enhancement Program

- Standardized the configuration and deployment of **Windows 11** endpoints across the organization, reducing setup time by approximately **18%** per machine.
- Developed and documented troubleshooting guides for common **Microsoft 365** issues, improving first-contact resolution rates for the support team by **12%**.
- Collaborated with the Asset Management team to streamline the tracking and lifecycle management of over **1,500** user devices.

Application Support and Integration for Business Systems

- Provided production support for various enterprise applications, including core business systems and operational platforms, ensuring high availability.
- Automated routine data validation tasks using **Python** scripting, reducing manual effort by an estimated **5 hours** per week for the operations team.
- Managed incident response and root cause analysis for P1/P2 issues, coordinating with cross-functional teams to implement corrective actions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
