PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported and integrated with enterprise business systems, including **ERP modules** and operational platforms, by managing change control for configuration updates and coordinating UAT.
- Developed and maintained **Java Spring Boot** REST APIs for cross-service data exchange, implementing request validation and circuit-breaker patterns to ensure reliable communication.
- Authored production runbooks and internal documentation that accelerated customer onboarding processes, reducing the typical time-to-first-feature from over 4 weeks to approximately 10 days.
- Learned and applied core business process understanding across **Finance, Procurement, and Supply Chain** functions within enterprise systems, mapping client operations to identify improvement opportunities.
- Assisted senior consultants in collecting and documenting business requirements, ensuring alignment with client goals and the capabilities of **JD Edwards and Oracle Fusion** modules.
- Gained hands-on experience in configuring and testing specific modules within **JD Edwards and Oracle Fusion** applications as part of project implementation phases.
- Containerized application services using **Docker** and deployed them to a Kubernetes cluster (EKS), configuring Helm charts and resource limits for predictable rollouts.

SKILLS

ERP Systems – JD Edwards, Oracle Fusion ERP Cloud, ERP integration support, Business Process Analysis, System Configuration, Requirements Gathering, Process Documentation, Implementation Support, Training & Change Support

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, Docker, Kubernetes, AWS (EC2, S3, Lambda, CloudWatch), Linux, Git, Jenkins

Data & Analytics – Power BI, Tableau, R/RStudio, pandas, NumPy, scikit-learn, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Methods, Exploratory Data Analysis

Development Tools – Jira, Confluence, Maven, Gradle, IDEs (Eclipse, IntelliJ)

Observability & Support – Splunk, Dynatrace, Incident Response, SLA Management, Change Management

PROJECTS

Enterprise ERP System Integration & Support (HCL Technologies)

- Integrated interconnected systems by developing **REST APIs** in Java Spring Boot and implementing database-level data flows across PostgreSQL and Oracle databases.
- Managed change control processes for system configuration updates, coordinating User Acceptance Testing (UAT) and providing post-go-live support for critical enterprise business systems.
- Documented and maintained functional specifications and user guides for key ERP modules, facilitating smoother user adoption and reducing post-implementation support queries by approximately 15%.

Customer Onboarding Automation for Enterprise Software (HCL Technologies)

- Developed a Python CLI tool to validate customer feature definitions against platform schemas, catching over 70% of schema errors at write time instead of during training.
- Designed and implemented a guided onboarding flow for a pilot enterprise customer, creating SDK examples and debug tooling that compressed the time-to-first-feature from ~6 weeks to 9 days.
- Ran follow-up technical workshops with customer data teams to upskill their internal engineers on integrating with the enterprise platform.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
