HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and managed **Azure IaaS** resources including **VMs**, **VNETs**, and **NSGs** to support multi-tier web applications, ensuring high availability and network segmentation.
- Deployed and supported **Azure PaaS** services, including **App Services** and **Azure SQL Database**, for web application hosting and data persistence, adhering to defined SLAs.
- Developed and maintained **PowerShell scripts** for automating Azure resource deployment and configuration management, reducing manual intervention by approximately **40%**.
- Participated in an on-call rota to provide **production support**, investigating and resolving incidents related to Azure infrastructure and deployed applications within defined response times.
- Analyzed production issues using **Azure Monitor** and **Log Analytics** to identify root causes and implement corrective actions, improving system stability.
- Collaborated with software engineering teams to understand application requirements and translate them into robust Azure infrastructure designs, facilitating seamless deployments.
- Managed infrastructure changes through a **ticket-driven workflow** in Jira, ensuring proper documentation, testing, and rollback plans were in place prior to implementation.

SKILLS

Cloud Platform – Azure, Azure IaaS, Azure PaaS, AKS, Azure Monitor, Azure SQL Database, App Services, Azure Networking, NSGs, VNETs, VMs

Scripting & Automation – PowerShell, Shell Scripting

Infrastructure Management – Jira, Confluence, CI/CD, Git

Operating Systems – Linux, Windows Server

Databases – SQL, PostgreSQL, MySQL, Oracle

Programming Languages – Java, Python, Spring Boot

PROJECTS

Azure IaaS Migration for Enterprise Applications

- Migrated on-premise server infrastructure for a legacy enterprise application to **Azure IaaS** (**VMs**, **Storage Accounts**), ensuring data integrity and minimal downtime during the transition.
- Implemented network security groups and virtual network peering to establish secure connectivity between migrated application components and existing on-premise systems.
- Automated the deployment of Azure infrastructure components using **PowerShell** scripts, enabling repeatable and consistent environment setups.

Azure PaaS Deployment for Web Application Backend

- Deployed a multi-tier web application backend onto **Azure App Services** and **Azure SQL Database**, configuring scaling and availability settings to meet performance requirements.
- Integrated application logging and monitoring using **Azure Monitor**, establishing alerts for key performance indicators and error rates.
- Developed data migration scripts in **Python** to transfer existing datasets to the new **Azure SQL Database** instance prior to application cutover.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
