HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **Python** scripts to automate data ingestion and transformation processes for enterprise reporting, reducing manual effort by an estimated **20%**.
- Managed production support for enterprise applications, responding to P1/P2 incidents and performing root cause analysis using **Splunk** and **Dynatrace** to maintain operational stability.
- Developed and maintained **Java Spring Boot** REST APIs to support cross-system integrations, handling approximately **1,500** requests per day.
- Created and enhanced **Apache Airflow** DAGs for complex ETL/ELT workflows, incorporating robust scheduling, dependency management, and automated retry mechanisms.
- Supported data integration solutions using **SQL**, performing complex queries, data validation, and schema modifications to ensure data integrity across PostgreSQL and Oracle databases.
- Provided production support for critical business services, including monitoring scheduled jobs, APIs, and data flows to meet defined operational SLAs and perform incident triage.
- Collaborated with data engineering and business teams to develop and support **Snowflake** data ingestion and ELT solutions, ensuring reliable data delivery for downstream analytics.

SKILLS

Data Engineering – Python, SQL, ETL, ELT, Snowflake, Apache Airflow, Data Warehousing, Data Modelling

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Backend Development – Java, Spring Boot, REST APIs, Microservices, Hibernate, JPA

Integration & APIs – MuleSoft, Salesforce APIs

Monitoring & Support – Splunk, Dynatrace, Incident Management, Release Management, SLA Management

Data Visualization – Power BI, Tableau

PROJECTS

Enterprise Data Pipeline Orchestration (HCL Technologies)

- Developed a scalable **Python**-based ETL pipeline to ingest and transform data from disparate sources into a central data warehouse, processing approximately **500,000** records daily.
- Engineered **Apache Airflow** DAGs to manage complex job dependencies, schedule data processing tasks, and implement automated error handling and recovery for critical data flows.
- Implemented comprehensive monitoring and alerting for the data pipelines using **Splunk**, ensuring timely notification of failures and performance degradation.

Financial Operations Data Integration & Reporting (HCL Technologies)

- Designed and implemented **SQL** scripts for data extraction and reconciliation from financial transaction systems, ensuring accuracy and completeness for regulatory reporting.
- Built **Power BI** dashboards to visualize key operational metrics from the financial services dashboard, providing stakeholders with actionable insights into transaction processing and system health.
- Supported the integration of data feeds between enterprise systems using **Java Spring Boot** APIs, facilitating seamless data exchange and reducing reconciliation discrepancies by an estimated **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
