PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided technical support for cloud-based enterprise applications, managing customer issues within the CRM system and driving resolution through root cause analysis.
- Managed the technical support lifecycle for escalated customer tickets, analysing and reproducing complex problems in distributed cloud environments.
- Coordinated with cross-functional engineering teams to identify, report, and expedite resolutions for product defects, proactively mitigating potential escalations.
- Debugged and resolved intricate technical issues in Java applications, tracing errors across microservices and providing timely fixes to maintain service stability.
- Developed and maintained RESTful APIs using **Java Spring Boot** for seamless integration between enterprise systems, ensuring data consistency and performance.
- Gained exposure to **Oracle** and **MS SQL Server** relational database management systems, assisting with data validation and schema-related inquiries.
- Containerized Java applications using **Docker** for consistent deployment across development and production environments, improving deployment reliability.

SKILLS

Programming Languages – Java, Python, SQL, French, English

Cloud Platforms – AWS, Azure, GCP

Databases – Oracle, MS SQL Server, PostgreSQL, MySQL

Frameworks & Technologies – Spring Boot, REST APIs, Docker, Linux (Red Hat, SuSE), Jenkins, Git, Splunk, Dynatrace, Jira, Confluence

Operating Systems – Linux, Windows

Web Services – REST, SOAP, Open API Specification (Swagger)

PROJECTS

Enterprise Application Support and Enhancement

- Provided production support for critical enterprise Java applications, monitoring system health via **Splunk** and **Dynatrace** and responding to P1/P2 incidents.
- Automated data validation and reporting tasks using **Python** scripting, reducing manual effort for the operations team by approximately **15%**.
- Developed and maintained **REST APIs** in **Java Spring Boot** to facilitate data exchange between internal financial systems and external partner platforms.

Customer Onboarding and Integration Support Tool

- Designed and built a **Python**-based tool to assist enterprise customers with initial system integration, streamlining the onboarding process.
- Integrated the tool with **REST** endpoints to validate customer configurations against system requirements, catching over **60%** of common setup errors early.
- Documented integration steps and common troubleshooting scenarios, creating a knowledge base that reduced onboarding support time for new clients by an estimated **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
