HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **AI-assisted automation** workflows using Python, integrating with enterprise systems for process transformation under guidance.
- Developed and deployed **SAP Joule Copilots and Assistants**, leveraging the AI Golden Path for Pro Code agent development to enhance user interaction.
- Mapped complex business processes and gathered detailed requirements for client engagements, translating them into actionable specifications for solution development.
- Contributed to change management activities by documenting process changes and supporting user acceptance testing for new system implementations.
- Integrated data across various platforms using **SAP Datasphere** and **DBX Connect**, ensuring data consistency for analytics and reporting purposes.
- Gained hands-on experience with **Large Language Models (LLMs)** and **Retrieval-Augmented Generation (RAG)** applications within the SAP landscape.
- Containerized **Java Spring Boot** applications for deployment on **AWS EC2**, managing configurations and ensuring smooth integration with CI/CD pipelines.

SKILLS

AI/ML – Agentic AI, AI-Assisted Automation, AI Adoption Capability, AI Output Quality Assurance, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Knowledge Graph, SAP Joule Copilots, AI Golden Path, Pro Code agent development, Joule Studio, Vector Engine

SAP Technologies – SAP Datasphere, DBX Connect, BDC Connect, BDC

Business Process Management – Business Acumen, Business Process Analysis, Business Process Management, Business Architecture, Change Management, Design Thinking, Process Mapping, Requirements Gathering, Scenario Testing, Customer Value Proposition, Business Processes

Programming Languages – Python, Java, SQL

Cloud & DevOps – AWS EC2, Docker, CI/CD

Methodologies – Agile, Scrum, Design Thinking

PROJECTS

SAP AI Assistant Development for Process Automation

- Developed a prototype **SAP Joule Assistant** using Python and the AI Golden Path to automate a key business process, reducing manual steps by an estimated 30%.
- Integrated a **Vector Engine** and RAG principles to enable the assistant to query an internal knowledge base, providing context-aware responses for user inquiries.
- Created comprehensive documentation and ran a pilot session with a small stakeholder group to gather feedback on usability and effectiveness.

Data Integration and Reporting for Enterprise Systems

- Built Python scripts to extract, transform, and load data from disparate enterprise systems into a central repository using **SQL**.
- Designed and implemented data models within **SAP Datasphere** to support analytical reporting requirements, improving data accessibility for business analysts.
- Developed automated reports using **Power BI** that provided insights into operational performance metrics, leading to more informed decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
