PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Resolved complex operating system, networking, and identity management issues, acting as a primary escalation point for Level 1 analysts.
- Investigated recurring incidents across enterprise applications, identified root causes through log analysis and system monitoring, and implemented long-term solutions to prevent recurrence.
- Created and maintained over **50 Knowledge Base (KB) articles** for new or unique technical issues, contributing to a **15% reduction** in repeat ticket submissions.
- Proactively monitored support trends using **Splunk** and **Dynatrace**, identifying patterns that indicated broader service degradation and escalating findings to engineering teams.
- Mentored and guided **three Level 1 analysts** on effective troubleshooting techniques and complex issue resolution, improving their team's average resolution time by **10%**.
- Contributed to automation initiatives by developing **Python scripts** to streamline repetitive IT tasks, including user account provisioning and system health checks.
- Managed and executed small-scale IT projects, such as coordinating a **device refresh initiative** for 50 end-users and overseeing office technology deployments.

SKILLS

Operating Systems – Linux, Windows Server, macOS

Networking – TCP/IP, DNS, DHCP, VPN, Firewalls

Identity Management – Active Directory, Okta, Azure AD, SSO

Endpoint Management – Microsoft Intune, Kandji, SCCM

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure

Scripting & Automation – Python, Bash

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

PROJECTS

Enterprise Identity Management Enhancement

- Designed and implemented automated user lifecycle management workflows using **Python scripting** and integration with **Okta** and **Active Directory**.
- Developed a comprehensive knowledge base for identity management procedures, including account provisioning, deprovisioning, and access request workflows, reducing manual intervention by **40%**.
- Collaborated with the security operations team to refine access control policies and troubleshoot complex multi-factor authentication issues for over **1,000 employees**.

IT Support Automation & Documentation Initiative

- Built a suite of **Python scripts** to automate common IT support requests and diagnostics, reducing ticket resolution time for routine issues by an average of **20%**.
- Created detailed technical documentation and **Knowledge Base articles** for common software and hardware issues, enabling end-users to self-resolve an estimated **25%** of common problems.
- Contributed to a pilot program for **M365 administration**, focusing on streamlining license management and user support for a department of 75 staff.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
