HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, ensuring seamless data exchange between microservices.
- Implemented robust data validation and error handling for financial transaction processing, reducing upstream data corruption incidents by **15%**.
- Designed and optimized **SQL queries** across PostgreSQL and Oracle databases to support complex reporting requirements for business analysts.
- Contributed to the definition and maintenance of the Company's **risk appetite** framework, ensuring alignment with regulatory standards.
- Assisted in the technical analysis of lapse experience data for global markets, identifying trends and contributing to the development of actuarial assumptions.
- Developed and improved **modelling solutions** using Python and R to support financial reporting and business insights.
- Containerized Java applications using **Docker**, streamlining deployment processes and ensuring consistent environments across development and production.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Tools & Technologies – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Analytics & BI – Power BI, Tableau, DAX, Power Query, data modelling

Actuarial Concepts – Regulatory reporting, Solvency II, IFRS17, risk appetite, lapse experience analysis, financial modelling

PROJECTS

Enterprise Financial Reporting System Enhancement

- Developed backend Java services using **Spring Boot** to process and aggregate financial data from multiple enterprise systems.
- Implemented data extraction and transformation logic using **Python and SQL**, preparing data for regulatory reporting dashboards.
- Designed and built RESTful APIs to integrate the reporting system with downstream analytical platforms, enabling faster data access for actuaries.

Actuarial Data Analysis and Modelling Platform

- Built analytical pipelines in **Python** with pandas and NumPy to clean and prepare large datasets for actuarial analysis.
- Developed and evaluated predictive models using **scikit-learn** to investigate lapse experience, achieving an AUC of **0.82** on historical data.
- Created interactive dashboards in **Power BI** to visualize key actuarial metrics and model outputs for business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
