HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Deployed and managed multi-tier web applications across **Azure IaaS** environments, including compute, storage, and networking components, ensuring high availability for production systems.
- Investigated and resolved production system issues by performing deep-dive analysis using tools like **Splunk** and **Dynatrace**, identifying root causes and implementing corrective actions to maintain service levels.
- Automated infrastructure provisioning and configuration management using **PowerShell** scripts and **Azure CLI**, reducing manual deployment effort by approximately 40% for new service instances.
- Participated in the on-call rotation, handling escalated incidents and performing emergency troubleshooting during nights and weekends to ensure continuous operation of critical enterprise applications.
- Developed and maintained CI/CD pipelines using **Jenkins** and **Git**, facilitating automated builds, testing, and deployments for various application tiers.
- Configured and monitored **Azure Kubernetes Service (AKS)** clusters, managing deployments, scaling, and resource allocation for containerized applications.
- Collaborated with cross-functional teams on change management processes for system configuration updates, coordinating UAT and providing post-go-live support across interconnected enterprise systems.

SKILLS

Cloud Platforms – Azure, Azure IaaS, Azure AKS, Azure CLI, AWS, EC2, S3, Lambda, CloudWatch

Infrastructure & DevOps – Kubernetes, Docker, Jenkins, Git, Terraform, PowerShell, Shell Scripting, CI/CD

Operating Systems – Linux, Windows Server

Monitoring & Logging – Splunk, Dynatrace, CloudWatch

Databases – PostgreSQL, MySQL, Oracle

Programming & Scripting – Java, Python, Spring Boot, REST APIs, JavaScript

PROJECTS

Azure Cloud Infrastructure Modernization

- Migrated on-premises application infrastructure to **Azure IaaS**, re-architecting multi-tier web applications for cloud-native deployment and operational efficiency.
- Implemented robust monitoring and alerting strategies using **Azure Monitor** and **Splunk** to proactively identify and resolve performance bottlenecks and system errors in production environments.
- Developed automated deployment scripts using **PowerShell** and **Terraform** to standardize the setup of new Azure environments, reducing deployment time by 50%.

Containerized Application Deployment on AKS

- Deployed and managed containerized enterprise applications on **Azure Kubernetes Service (AKS)**, ensuring high availability and scalability.
- Configured networking, storage, and security policies within the AKS cluster to support critical application workloads and adhere to compliance requirements.
- Integrated CI/CD pipelines using **Jenkins** to automate the build, test, and deployment of container images to the AKS cluster.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
