PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **reusable front-end components** using **React** and **TypeScript**, contributing to a consistent UI across multiple client applications.
- Translated user requirements and high-fidelity mock-ups into polished, production-ready **front-end code**, ensuring accurate implementation of **UX/UI designs**.
- Integrated user-facing features from initial concepts and wireframes through to final implementation, working within an **Agile software development lifecycle**.
- Built and maintained **component-based design systems** and reusable UI libraries, enhancing development efficiency for the product team.
- Championed **accessibility** and **responsive design** best practices, ensuring web applications met WCAG standards and provided inclusive user experiences.
- Collaborated closely with Product Managers, UX Designers, and Software Engineers to translate user requirements into effective, user-centred solutions.
- Containerised front-end applications using **Docker** and deployed them to a CI/CD pipeline managed via **Jenkins**, improving deployment consistency.

SKILLS

Frontend Frameworks – React, TypeScript, JavaScript

Design Tools – Figma

Methodologies – Agile, Scrum

Cloud & CI/CD – Docker, Jenkins, Git

Core Technologies – HTML, CSS, UX, UI Design, Design Systems, Accessibility, Responsive Design

PROJECTS

Customer Portal Redesign with React

- Led the front-end development for a customer portal redesign, implementing a new user interface using **React** and **TypeScript**.
- Developed a comprehensive **design system** with reusable components, reducing UI development time for new features by an estimated **30%**.
- Incorporated **WCAG accessibility** standards throughout the development process, ensuring compliance for all user-facing elements.

Interactive Dashboard Component Library

- Built a library of interactive dashboard components in **React** for internal use, enabling faster development of data visualization tools.
- Designed and implemented a modular component architecture that supported **responsive design** across desktop and mobile viewports.
- Integrated **Figma** designs directly into component development, streamlining the handoff process between design and engineering teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
