PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided comprehensive first and second-line technical support for **Windows 11** and **macOS** devices and applications to a team of software developers, managing issues from initial contact to resolution.
- Managed and maintained **development kits**, including tracking their status and location, performing approved firmware updates, and fulfilling ad-hoc developer requests.
- Utilized **SSH** and various diagnostic tools to investigate hardware and software issues, connecting remotely to devices to aid in troubleshooting.
- Set up new starter equipment, managed the device lifecycle, and maintained accurate **asset records**, ensuring smooth onboarding for new team members.
- Created and updated process documentation, troubleshooting guides, and knowledge articles in **Confluence** to build a self-service support repository.
- Acted as the primary point of contact for local IT issues in the Dublin office, building trusted relationships with the developer community and translating technical problems into clear updates.
- Supported device management solutions for client and patch management, investigating exceptions and assisting with remediation work to ensure system integrity.
