PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for core business logic and integrating with relational databases.
- Designed and implemented persistence layers using **Hibernate** and **JPA**, optimizing data access patterns and ensuring data integrity across multiple modules.
- Authored comprehensive **JUnit** and **Mockito** tests for Java components, achieving over **85%** code coverage and reducing regressions in production releases.
- Provided technical guidance and conducted code reviews for junior engineers, ensuring adherence to coding standards and architectural best practices within the team.
- Actively participated in **Agile Scrum** ceremonies, including sprint planning, daily stand-ups, and retrospectives, contributing to accurate technical estimations and timely delivery.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, managing build and deployment pipelines via **Jenkins**.
- Collaborated with cross-functional teams to troubleshoot and resolve medium to large software defects within the **Charles River IMS** platform, ensuring system stability.

SKILLS

Programming Languages – Java, SQL, JavaScript, C#

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle, RDBMS

Methodologies – Agile, Scrum

Tools – Jira, Confluence, Splunk, Dynatrace

PROJECTS

Java-based Financial Transaction Processing Service

- Developed a **Java Spring Boot** service to process and validate financial transactions, handling approximately **5,000** transactions per hour.
- Integrated the service with a **PostgreSQL** database using **Hibernate** for persistent storage and retrieval of transaction records.
- Implemented comprehensive unit and integration tests using **JUnit**, ensuring the reliability and correctness of the transaction processing logic.

AWS Microservice Deployment Automation

- Automated the deployment of Java microservices to **AWS EC2** instances using **Jenkins** pipelines and **Docker** containers.
- Configured CI/CD workflows that included automated builds, testing, and deployments, reducing manual deployment time by **60%**.
- Wrote shell scripts for environment configuration and log management on Linux servers, supporting smooth operational transitions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
