HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented Python ETL pipelines to ingest and transform financial transaction data from disparate sources into a unified data warehouse structure, processing approximately **1.5 TB** of data weekly.
- Developed and maintained Java Spring Boot microservices, creating RESTful APIs for data retrieval and manipulation, contributing to an **8%** reduction in data access latency for downstream applications.
- Managed production support for enterprise applications, including incident response, root cause analysis, and SLA adherence for critical systems, resolving over **95%** of P2 incidents within the defined SLA.
- Assisted senior engineers in the design and development of data pipelines, focusing on data extraction, transformation, and loading (ETL) processes using Python scripts and SQL.
- Supported the creation and maintenance of technical documentation, including data dictionaries, process flows, and user guides for analytical solutions.
- Participated in data analysis and quality assurance activities, performing data profiling to identify anomalies and validate data integrity using SQL queries and Python scripts.
- Containerized Java Spring Boot applications using **Docker** and deployed them to AWS EC2 instances, improving deployment consistency and reducing setup time by **30%**.

SKILLS

Data Engineering – SQL, ETL, ELT, Data Warehousing, Data Profiling, Data Quality, Python, Pandas, NumPy

BI & Analytics Tools – Power BI, Tableau, DAX, Power Query

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Snowflake (exposure)

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Development Tools – Docker, Git, Jenkins, Jira, Confluence

PROJECTS

Enterprise Data Pipeline Orchestration (HCL Technologies)

- Developed Python scripts to automate the extraction and transformation of data from multiple enterprise systems, supporting an internal data analytics platform.
- Designed and implemented data validation checks within the ETL process, reducing data quality issues reported by end-users by **22%**.
- Managed data flow scheduling and dependency management using cron jobs and basic shell scripting, ensuring timely data availability for reporting.

Interactive Sales Performance Dashboard (MSc Data Analytics Project)

- Created interactive dashboards in **Power BI** to visualize sales performance metrics, enabling business stakeholders to track key performance indicators.
- Developed **DAX** measures and performed data modeling in Power BI to support complex analytical queries and reporting requirements.
- Engineered data extraction and transformation logic using **Power Query** to consolidate data from various sales channels into a single, analysis-ready dataset.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
