HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed **Python** scripts to automate data extraction and transformation tasks, reducing manual processing time for operational reports by approximately **40%**.
- Designed and implemented **REST APIs** using **Java Spring Boot** for seamless integration between enterprise systems, handling over **1,500** requests per minute during peak hours.
- Managed and troubleshot production incidents for enterprise applications, ensuring adherence to strict **SLA** targets and performing root cause analysis using **Splunk** and **Dynatrace**.
- Assisted in advancing enabling technologies for automation and data analytics within network services, contributing to the development of new tooling and functionality integrations.
- Developed and deployed automation and analytical solutions, including data extraction tools and visualizations, to promote analytics throughout the organization.
- Performed analysis of data from various sources, transforming it into actionable insights and communicating reports to stakeholders to support educated business decisions.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, contributing to a more efficient and scalable infrastructure.

SKILLS

Programming Languages – Python, Java, R, C++, Perl

Web Technologies – RESTFul API, SOAP, JSON, XML, YAML

Cloud & DevOps – AWS, Docker, Jenkins, Git, API

Data & Analytics – Data Extraction, Data Visualization, Data Analysis, Machine Learning Models, Power BI, Tableau

Networking & Automation – Network Programmability, NETCONF, RESTCONF, Automation, Orchestration

Methodologies – Agile, DevOps

PROJECTS

Automated Network Data Aggregation Platform

- Developed a **Python**-based platform to aggregate and process network performance data from multiple sources, reducing data preparation time by **50%**.
- Engineered **REST APIs** using **FastAPI** to expose aggregated network statistics, enabling real-time dashboard updates for operations teams.
- Integrated the platform with **AWS S3** for data storage and implemented automated data validation checks to ensure data integrity.

Network Services Performance Analytics Dashboard

- Created interactive **Power BI** dashboards to visualize key network performance indicators and identify trends for operational efficiency.
- Extracted and transformed data from diverse network logs using **Python** and **SQL**, structuring it for effective analysis and reporting.
- Collaborated with network engineers to define critical metrics and present findings, facilitating data-informed decision-making for infrastructure improvements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
