PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed programmatic bid-stream data to identify inventory performance trends and opportunities for optimisation, presenting findings to media planners and strategists.
- Transformed raw data from multiple internal and third-party sources into meaningful insights for client pitches, focusing on audience trends and campaign performance measurement.
- Developed and maintained **Power BI dashboards** to visualise media campaign performance across digital and traditional channels, enabling data-driven decision making for stakeholders.
- Collaborated with planning, strategy, and programmatic teams to translate complex data into clear visualisations and actionable insights for client presentations.
- Evaluated the quality of data provided by external partners, identifying discrepancies and working with vendors to ensure accuracy for campaign reporting.
- Applied **SQL** and **Python** for data manipulation and exploratory analysis on large datasets, uncovering patterns to answer key business questions.
- Managed data quality and accuracy for campaign measurement initiatives, ensuring high attention to detail and commitment to precise reporting for stakeholders.

SKILLS

Data Visualization – Power BI, Tableau, Looker Studio

Data Analysis & Manipulation – SQL, Python, Excel, pandas, NumPy

Media & Advertising – Programmatic Platforms, DSPs, SSPs, Ad Servers, Audience Analysis

Statistical Analysis – Exploratory Data Analysis, Hypothesis Testing, A/B Testing, Time-Series Analysis

Cloud & Data Platforms – AWS, S3, Lambda, CloudWatch, PostgreSQL, MySQL, Oracle

Software Development – Java, Spring Boot, REST APIs, Docker, Jenkins, Git

PROJECTS

Media Campaign Performance Analytics Dashboard

- Developed an interactive **Power BI dashboard** to track key performance indicators for out-of-home media campaigns, consolidating data from multiple sources.
- Implemented complex **DAX measures** for audience segmentation analysis and campaign effectiveness reporting, delivering insights to the media planning team.
- Automated data extraction and transformation processes using **Power Query**, reducing manual effort by approximately 40% for monthly reporting cycles.

Programmatic Bid-Stream Data Analysis

- Performed exploratory data analysis on large programmatic bid-stream datasets using **Python** and **SQL** to identify patterns in inventory performance and audience behaviour.
- Extracted and cleaned data from fragmented sources, preparing datasets for analysis and contributing to the development of optimisation models.
- Collaborated with programmatic specialists to define data requirements and validate analysis findings against real-world campaign execution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
