PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Adobe Analytics** tracking implementation for key marketing campaigns, ensuring data accuracy for over **15 distinct campaign types**.
- Executed recurring lead management and campaign reporting processes using **SQL** and **Power BI**, delivering performance insights to marketing stakeholders weekly.
- Partnered with marketing and CRM teams to ensure reliable and accurate MQL data flows, contributing to a **15% improvement** in lead qualification accuracy.
- Analyzed customer digital engagement behavior across multiple channels, generating insights that aided in campaign personalization and channel optimization initiatives, leading to a **12% uplift** in engagement rates.
- Created and maintained process documentation and reporting methodologies for campaign analytics, standardizing business rules and improving process consistency across the team.
- Supported ad hoc reporting and business requests related to campaign performance and in-market channel optimization, delivering custom reports within **24-hour SLAs**.
- Containerized Python-based data processing scripts using **Docker** and deployed them to an **AWS Lambda** environment, reducing manual reporting effort by approximately **8 hours per week**.

SKILLS

Analytics Platforms – Adobe Analytics, Adobe Experience Platform (AEP), Power BI, Tableau

Data Analysis & SQL – SQL, Data Warehousing, ETL, Data Modelling, DAX, Power Query

Marketing & CRM – Marketing Campaign Analysis, Lead Management, Salesforce, Marketo

Programming & Scripting – Python, R, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker

Core Technologies – Java, Spring Boot, REST APIs, PostgreSQL, MySQL, Oracle, Linux, Git, Jenkins

PROJECTS

Marketing Campaign Performance Dashboard

- Developed an interactive **Power BI** dashboard integrating data from multiple marketing channels (email, digital ads, webinars) to provide a unified view of campaign performance.
- Designed and implemented **DAX measures** to calculate key performance indicators such as ROI, CPA, and conversion rates, enabling stakeholders to track campaign effectiveness against business objectives.
- Automated data extraction and transformation processes using **Power Query**, reducing the manual effort for report generation by **20%** and ensuring timely delivery of weekly insights.

Customer Engagement Analysis Pipeline

- Engineered a **Python** pipeline to extract and analyze customer digital engagement signals from web analytics logs, identifying key interaction patterns.
- Applied statistical methods and **scikit-learn** to segment customer behavior, contributing to a targeted campaign strategy that increased audience engagement by **10%**.
- Created data models and documented analytical workflows to support ongoing analysis of customer journeys and inform future marketing initiatives.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
