HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented data pipelines within **Microsoft Fabric** for ingesting and transforming data from diverse sources, supporting scalable data platform creation for enterprise clients.
- Developed and maintained **SQL** queries and scripts to support data transformation and integration activities, ensuring data accuracy and consistency across platforms.
- Collaborated with senior consultants on client projects, translating business requirements into technical solutions using **Microsoft Fabric**, **Power BI**, and **Azure** services.
- Assisted in the design and build of modern data solutions using **Microsoft Fabric**, contributing to the development of data lakes and data warehousing components.
- Participated in client workshops and requirements-gathering sessions, effectively communicating technical concepts and project progress to stakeholders.
- Troubleshot and resolved data and platform issues, ensuring the reliability and performance of deployed data solutions.
- Containerized data pipeline components using **Docker** for consistent deployment across development and production environments on **Azure**.

SKILLS

Data Platform – Microsoft Fabric, Azure Data Lake, Azure Data Factory, Data Warehousing

Data Engineering – Data Pipelines, ETL, ELT, Data Transformation, Data Integration

Languages & Databases – SQL, Python

BI & Visualization – Power BI, DAX

Cloud Services – Azure

Methodologies – Agile, Scrum

PROJECTS

Enterprise Data Lake Modernization with Microsoft Fabric

- Designed and built a central data lake using **Microsoft Fabric**, integrating data from multiple internal and external sources to create a unified analytics platform.
- Developed **Python** scripts for data ingestion and transformation pipelines feeding into the data lake, processing approximately 50,000 records per hour.
- Created initial **Power BI** reports and dashboards on top of the data lake, demonstrating insights to business stakeholders and gathering feedback for iterative development.

Customer Data Integration and Reporting Solution

- Engineered an ETL process using **SQL** and **Python** to consolidate customer data from disparate systems into a staging database for a client's operational reporting.
- Implemented data validation checks within the pipeline to ensure data quality, reducing downstream reporting errors by **18%**.
- Supported UAT for the data integration solution, working with client business analysts to confirm data accuracy and meet reporting requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
