PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained robust Java Spring Boot REST APIs for internal microservices, processing an average of **1,500 requests per minute**.
- Designed and implemented efficient database schemas and complex SQL queries across PostgreSQL and Oracle for enterprise reporting functions, reducing ad-hoc query times by **30%**.
- Automated data extraction, transformation, and loading processes using Python scripts and pandas, handling over **10 GB of daily data** for scheduled financial reports.
- Collaborated with cross-functional teams to analyze customer behaviour and identify opportunities for improvement, supporting digital initiatives within the online retail function.
- Supported website and app performance analysis, contributing to the optimisation of digital customer experiences and user journeys.
- Participated in Agile ceremonies, including sprint planning and retrospectives, to contribute to the delivery of a best-in-class online shopping experience.
- Managed and monitored production environments using Splunk and Dynatrace, responding to P1/P2 incidents and ensuring SLA adherence for critical enterprise applications.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Linux Shell Scripting

PROJECTS

Enterprise Data Pipeline for Operational Analytics

- Developed a Python-based ETL pipeline to ingest and transform data from multiple disparate sources, supporting an internal operational analytics dashboard.
- Engineered SQL scripts for data validation and cleansing, ensuring data integrity for over **50,000 daily transaction records** before loading into a data warehouse.
- Containerized the data pipeline services using Docker, facilitating consistent deployment across development and staging environments.

Customer Journey Optimisation Dashboard

- Designed and built interactive Power BI dashboards to visualize key customer journey metrics, enabling stakeholders to identify drop-off points.
- Created complex DAX measures and Power Query transformations to aggregate and analyze user interaction data from website logs, covering approximately **1.5 million user sessions**.
- Published and maintained dashboards for business analysts and product owners, facilitating data-driven decision-making for online experience improvements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
