HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed **Java Spring Boot microservices** to handle core business logic, processing approximately 1,500 requests per minute during peak hours.
- Implemented data persistence layers using **Hibernate** and PostgreSQL, ensuring efficient data retrieval and management for enterprise applications.
- Designed and built **RESTful APIs** in Java for cross-service communication, incorporating input validation and error handling mechanisms.
- Contributed to the design and build of **AI-ready data platform capabilities** that enable self-service data discovery and usage.
- Developed **AI agents and MCP-based integrations** that allow users to interact with data products using natural language.
- Collaborated with domain owners to understand their data products and create **intelligent experiences** that simplify data consumption.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, enhancing application portability and scalability.

SKILLS

AI/ML – AI Agents, Agentic Workflows, Model Context Protocol (MCP), Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, Vector Databases, Semantic Search

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, pandas, NumPy, scikit-learn, Apache Spark, Dremio, Flask, FastAPI, LangChain

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure Data Platform (Databricks, AKS, ADLS, ADF, Azure AI Services)

Databases – PostgreSQL, MySQL, Oracle, Vector Databases

Tools & Technologies – Docker, Kubernetes, Git, Jenkins, Kafka, REST APIs, gRPC, Event-Driven Architectures, Power BI, Tableau, Splunk, Dynatrace

PROJECTS

AI Agent for Data Discovery (HCL Technologies)

- Developed a proof-of-concept **AI agent** using Python and LangChain to facilitate natural language querying of enterprise data sources.
- Integrated with **vector databases** to enable semantic search capabilities, allowing users to discover relevant datasets based on descriptive queries.
- Built a **FastAPI service** to serve the AI agent's inference endpoint, achieving p95 latencies under 200ms for query responses.

Data Product Exposure API (HCL Technologies)

- Engineered a **Java Spring Boot application** to expose curated data products via secure REST APIs for consumption by downstream analytics teams.
- Implemented robust error handling and logging using **Splunk**, monitoring API usage and performance for approximately 500 daily requests.
- Designed the API contract and data models in collaboration with business analysts to ensure clear definitions and data lineage tracking.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
