PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Assessed and monitored technology, cyber, and operational resilience risks, contributing to a **15% reduction** in identified control gaps across key systems.
- Collaborated with Technology and Information Security teams on risk and control assessments, identifying and documenting **12 key areas** for improvement.
- Supported risk governance and reporting activities, including tracking **~50 key risk indicators** and changes in the risk profile.
- Contributed to the implementation of operational resilience frameworks, assisting in the monitoring of requirements and assessment of their embeddedness.
- Developed and maintained trusted working relationships with colleagues across Technology, Information Security, Risk, Compliance, and business units to ensure comprehensive risk coverage.
- Supported the development and refinement of risk frameworks, policies, and methodologies, ensuring alignment with evolving regulatory landscapes like DORA.
- Containerized and deployed Java Spring Boot applications to AWS EC2 instances using **Docker**, improving deployment consistency and reducing manual configuration errors by **30%**.

SKILLS

Risk Management – IT Risk, Cyber Risk, Operational Resilience, Risk Assessments, Control Assessments, Risk Governance, Risk Reporting, Key Risk Indicators (KRIs), DORA

Technology – Java, Spring Boot, SQL, PostgreSQL, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Python, REST APIs

Auditing & Compliance – Internal Audit, Compliance, Regulatory Requirements, GDPR, Change Management, Audit Trails

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, pandas, scikit-learn

Methodologies – Agile, Scrum, Incident Response, Root Cause Analysis, Stakeholder Management

Observability – Splunk, Dynatrace, CloudWatch

PROJECTS

IT Risk Assessment Framework Enhancement

- Developed a standardized risk assessment template using **Python** and **Pandas** to streamline the evaluation of technology risks, reducing assessment time by **20%**.
- Implemented automated data validation checks for risk assessment inputs using **SQL** queries against PostgreSQL, improving data integrity and reducing manual errors.
- Contributed to the development of reporting dashboards in **Power BI** to visualize key risk indicators and assessment findings for senior management.

Operational Resilience Monitoring Dashboard

- Designed and built a Java Spring Boot application to aggregate operational data from various sources, providing near real-time monitoring for critical systems.
- Integrated with **AWS CloudWatch** for collecting application logs and metrics, enabling proactive identification of potential resilience issues.
- Developed REST APIs using **Spring Boot** to expose aggregated data for consumption by enterprise reporting tools, facilitating better decision-making during operational events.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
