# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Managed the stability and performance of **enterprise applications** on Windows Server and Linux environments, responding to P1/P2 incidents and ensuring SLA adherence.
- Automated routine system administration tasks and data validation processes using **Python scripting**, reducing manual effort by approximately **15%**.
- Executed system changes and deployments for critical applications, coordinating with development teams and following established **change management** protocols.
- Provided essential support for both **laboratory and business applications**, troubleshooting and resolving technical issues across the organization to maintain operational continuity.
- Performed regular **system monitoring** and health checks, identifying potential issues and implementing preventative measures to maximize uptime.
- Developed and maintained **critical system documentation**, including configuration guides and operational procedures, to support knowledge transfer and training.
- Administered and queried **relational databases** including Oracle and PostgreSQL, writing SQL queries for data extraction and validation.

## SKILLS

**Operating Systems** – Windows Server, Linux

**Databases** – Oracle, PostgreSQL, SQL Server, SQL

**Scripting & Automation** – Python

**System Administration** – System Configuration, System Monitoring, Change Management, Deployment Processes, Incident Response

**Core IT** – Directory Services, Desktop Operating Systems, Microsoft Office Applications

**Enterprise Applications** – Application Support, Production Support

## PROJECTS

### Enterprise Application Uptime Enhancement Initiative

- Enhanced the reliability of **enterprise applications** by implementing proactive monitoring solutions and optimizing system configurations on both **Windows Server and Linux** platforms.
- Streamlined incident response procedures for critical systems, reducing average resolution time for P1 incidents by approximately **18%** through improved **diagnostic tooling**.
- Collaborated with cross-functional teams to manage application lifecycle, including scheduled updates and patch deployments, ensuring minimal disruption to business operations.

### Automated Data Validation and Reporting System

- Developed a suite of **Python scripts** to automate data extraction, validation, and the generation of weekly operational reports from **relational databases** (PostgreSQL, Oracle).
- Implemented error handling and logging mechanisms within the automation scripts, increasing the success rate of data processing runs to over **98%**.
- Created and maintained comprehensive documentation for the automated system, enabling easier adoption and troubleshooting by operations teams.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
