PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed and configured **Ticketmaster proprietary software and hardware**, including ticket printers and handheld devices, across 15 fixed client sites.
- Upgraded and replaced **hardware and software components** on Point of Sale systems, ensuring devices remained current and operational for peak event periods.
- Diagnosed and remediated technical issues for **end-users and clients** remotely and on-site, reducing incident resolution time by an average of **18%**.
- Installed and supported **network devices** such as Wireless Access Points and Switches, contributing to stable connectivity for event operations.
- Tracked and updated asset management software for **IT hardware and peripherals**, maintaining an accurate inventory for the enterprise support team.
- Provided on-site **end-user training and demonstrations** of Ticketmaster products and solutions to client staff prior to event commencement.
- Managed and updated **technical and operational documentation** for IT support procedures, improving knowledge sharing across the global support organization.

SKILLS

Hardware/Software Support – Ticketmaster proprietary software, Ticket printers, Handheld Devices, Point of Sale, Software installation, Firmware updates, Hardware upgrades, Software upgrades, Configuration, Testing

Networking – Network devices, Wireless Access Points, Switches, Bridges, Wired networking, Wireless networking

IT Support Tools – Incident management software, Asset management software, Ticketing systems

Operating Systems & Applications – Microsoft, Mobile device applications

Customer Interaction – On-site support, Remote support, End-user training, Demonstrations, Client liaison

General IT – Troubleshooting, Problem diagnosis, Remediation, Documentation, Best practices, Standards maintenance

PROJECTS

Enterprise Hardware Deployment and Support

- Managed the deployment of **new ticket printers and handheld devices** for a major financial services client's event ticketing operations, ensuring timely setup before peak season.
- Provided direct on-site **technical support and training** to client staff on the operation of new hardware and proprietary ticketing software, resolving initial user queries within the first week.
- Documented installation procedures and troubleshooting guides for the deployed hardware, which the client's internal support team now uses to manage their device fleet.

Network Device Installation and Configuration for Events

- Installed and configured **wireless access points and network switches** at multiple outdoor festival venues to support mobile ticketing and payment systems.
- Collaborated with third-party contractors to ensure seamless integration of network infrastructure, contributing to reliable connectivity for over **50,000 concurrent users** during peak event hours.
- Performed post-event network teardown and asset logging, ensuring all equipment was accounted for and returned to inventory.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
