HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed **production support** for enterprise applications, responding to P1/P2 incidents and ensuring adherence to SLAs using **Splunk** and **Dynatrace**.
- Developed **Python scripts** to automate data extraction and transformation tasks, supporting scheduled reporting for operational teams.
- Authored **SQL queries** for data validation and performed schema modifications across **PostgreSQL** and **MySQL** databases.
- Contributed to the development of new features and bug fixes for **Java Spring Boot** REST APIs, enhancing existing microservices.
- Supported the evaluation and specification of **materials** for new product lines, ensuring suitability for intended applications.
- Conducted **material testing** and analysis to assess performance and compliance with product specifications and quality standards.
- Provided **material-related technical input** to product development projects, collaborating with engineering and design teams.

SKILLS

Engineering & Materials – Materials Selection, Materials Testing, Product Development, Quality Standards, Materials Analysis, Root Cause Analysis, Supplier Assessment, Manufacturing Efficiency, Sustainability

Programming & Backend – Java, Spring Boot, REST APIs, Python, SQL, PostgreSQL, MySQL, Oracle, Linux, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, RStudio, pandas, NumPy, scikit-learn

Project Management & Tools – Agile, Scrum, Jira, Confluence, Change Management, Technical Reports, Presentations

PROJECTS

Materials Evaluation and Testing Framework (HCL Technologies)

- Developed a Python-based framework to automate the logging and analysis of material testing results, integrating with a **PostgreSQL** database.
- Designed and implemented standardized testing protocols for evaluating the durability and reliability of composite materials used in client projects.
- Authored technical reports summarizing test findings and providing recommendations for material selection and process improvements to engineering stakeholders.

Production Support Dashboard Enhancement (HCL Technologies)

- Engineered **Java Spring Boot** services to ingest and process operational data from multiple enterprise systems for a financial services client dashboard.
- Implemented automated alerts for critical transaction failures and reconciliation discrepancies, reducing manual oversight by approximately 30% for the operations team.
- Refactored data pipelines using **Python** and **SQL** to improve report generation speed for daily operational reviews.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
