PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed and validated multiple internal and external data sources to calibrate financial and non-financial data, identifying actionable insights for the business support team.
- Generated comprehensive reporting, pricing, and operational metrics for over 100 multinational clients, ensuring alignment with group business reporting goals.
- Collaborated with cross-functional teams to gather relevant data for reporting, meticulously checking the accuracy of all data sources before final delivery.
- Coordinated the setup of new accounts and products with the Key Account Management team, ensuring accuracy and consistency across all client data inputs.
- Provided critical data input for the Master Data team, focusing on pricing and billing information to maintain data integrity.
- Managed and coordinated the setup of new accounts and products, liaising with Key Account Management to ensure data accuracy and consistency for over 100 clients.
- Implemented process improvements for data input and account setup, recommending alternate solutions that enhanced customer experience and operational efficiency.
