HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed complex fund financial reports from third-party providers, validating accuracy and resolving discrepancies exceeding tolerance levels for medium-complexity funds.
- Oversaw the completion of key departmental deliverables, acting as the primary escalation point for colleagues facing reporting challenges or data issues.
- Developed and maintained a broad understanding of global regulatory reporting requirements, ensuring compliance and facilitating the fund certification process.
- Identified and documented internal control gaps within financial reporting processes, recommending and managing the implementation of process improvements and control enhancements.
- Managed policies and procedures related to financial reporting, proactively identifying opportunities for optimization and recommending measures to strengthen the internal control framework.
- Contributed to special projects within the department, providing analytical support and executing assigned duties to meet team objectives.
- Containerized financial reporting services using **Docker** and deployed to **AWS EC2** instances, ensuring reliable execution of automated report generation pipelines.

SKILLS

Financial Reporting – Fund Financial Statements, Regulatory Reporting, Shareholder Reporting, Control Checks, Financial Analysis, Risk Mitigation

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, Exploratory Data Analysis

Programming & Scripting – Python, Java, Spring Boot, SQL, R, pandas, NumPy, scikit-learn

Databases & Cloud – PostgreSQL, MySQL, Oracle, AWS (EC2, S3, Lambda, CloudWatch)

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum, REST APIs

PROJECTS

Financial Operations Dashboard Enhancement

- Enhanced an enterprise payments operations dashboard by developing **Python scripts** for automated data ingestion and validation from multiple sources, reducing manual data preparation time by **40%**.
- Implemented **SQL queries** across PostgreSQL and Oracle databases to support transaction monitoring and reconciliation workflows, ensuring data integrity for over 10,000 daily transaction records.
- Refactored existing Java Spring Boot REST APIs to improve data retrieval performance for operational reporting, resulting in a **30% reduction** in average API response times for dashboard queries.

MSc Applied Data Analytics Capstone Project

- Developed interactive **Power BI dashboards** to visualize key performance indicators for a simulated retail sales dataset, enabling stakeholders to identify trends and make data-informed decisions.
- Applied **DAX measures** and Power Query transformations to model and analyze a dataset of **~150,000** customer transactions, deriving insights into purchasing behavior.
- Conducted **exploratory data analysis** using R and Python (pandas, NumPy) to understand data distributions and identify potential areas for business improvement.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
