# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Managed production support for enterprise applications, resolving P1/P2 incidents and ensuring SLA adherence across diverse systems.
- Developed Python scripts to automate data extraction, transformation, and loading processes for scheduled reporting, enhancing data delivery efficiency.
- Executed ad-hoc SQL queries, performed data validation, and implemented schema changes across PostgreSQL, MySQL, and Oracle databases.
- Contributed to feature development and bug fixes for Java Spring Boot services, including the design and implementation of REST APIs.
- Facilitated operational resolutions for application fallout errors and gaps in functionality within the Global Supply Chain and Sourcing systems.
- Tested functionality for fixes, enhancements, and new releases, ensuring successful end-user acceptance and smooth deployments.
- Created and maintained technical documentation for new functionality and delivered end-user training sessions on application updates.

## SKILLS

**Languages** – Java, Python, SQL, R

**Frameworks/Libraries** – Spring Boot, pandas, NumPy, scikit-learn

**Databases** – PostgreSQL, MySQL, Oracle

**Cloud/DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

**Tools** – Splunk, Dynatrace, Jira, Confluence, Google G-Suite, Microsoft Office

**Domain** – Enterprise Software Systems, Application Support, Supply Chain Operations, System Testing

## PROJECTS

### Enterprise Application Support Enhancement

- Automated critical incident response reporting using Python and Splunk, reducing manual data compilation time by 60% for the operations team.
- Developed comprehensive runbooks and troubleshooting guides for common application issues within the enterprise systems portfolio, standardizing resolution procedures.
- Collaborated with business analysts to refine requirements for system enhancements, translating user needs into actionable development tasks for the support team.

### Data Pipeline & Reporting Automation

- Engineered Python-based ETL pipelines to ingest and transform data from various enterprise sources into a centralized PostgreSQL data store for improved analytics.
- Built automated reporting solutions using SQL and Python scripts to generate weekly operational summaries, providing key insights into system performance and user activity.
- Managed change control processes for database updates and configuration changes, ensuring system integrity and minimal disruption during deployments.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
