PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Served as the primary point of contact for technical support at customer sites, resolving **IT-related challenges** for end-users and ensuring productivity.
- Managed incident resolution in line with **Service Level Agreements (SLAs)**, maintaining accurate documentation of troubleshooting steps and system performance.
- Conducted routine **health checks** of systems, applications, and networks, monitoring alerts to proactively address potential issues before escalation.
- Configured and deployed new **laptops, mobile devices**, and peripherals, while managing user accounts, permissions, and access rights.
- Installed, updated, and patched **software applications** according to company policy, and maintained an inventory of IT equipment.
- Collaborated with other IT teams to address complex problems, escalating to L2/L3 support as needed, and participated in **business continuity testing**.
- Provided **VIP/Executive support**, demonstrating end-user empathy and handling escalations calmly and professionally.

SKILLS

IT Support Tools – ServiceNow ITSM, Remote Support Tools, Asset Management Tools

Operating Systems – Windows 10/11, MacOS, Linux

Productivity Suites – Microsoft 365, M365, O365

Core Technologies – ITIL Frameworks, MFA, Audio Visual Equipment, Networking Concepts

Hardware Troubleshooting – Laptops, Mobile Devices, Peripherals

Security Practices – MFA, Security Awareness

PROJECTS

Enterprise IT Support Enhancement Initiative

- Streamlined the incident logging and management process within the **ServiceNow ITSM** platform, reducing average ticket handling time by 15%.
- Developed and deployed a comprehensive knowledge base for common **Windows 10/11 troubleshooting** scenarios, decreasing repeat incident volume by 22%.
- Supported the rollout of new **Microsoft 365** features across an 80-person department, including user training and post-implementation issue resolution.

Customer Site Technical Operations Framework

- Established on-site technical support protocols for a key enterprise client, focusing on prompt resolution of hardware and software issues.
- Managed user account provisioning and deprovisioning for a distributed user base, ensuring adherence to **security practices** and access control policies.
- Performed routine system health checks and proactive maintenance on end-user devices and local network infrastructure to ensure high availability.
