HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for core business services, handling approximately **1,500 requests per minute** during peak hours.
- Implemented critical bug fixes and feature enhancements for enterprise applications, ensuring adherence to coding standards and improving system stability.
- Designed and optimized **SQL queries** across PostgreSQL and Oracle databases, reducing data retrieval times for key operational reports by an average of **30%**.
- Contributed to the development of **CI/CD pipelines** using Jenkins and Git, automating build and deployment processes to accelerate release cycles.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing corrective actions within defined SLAs.
- Containerized backend services using **Docker**, facilitating consistent deployment across development, testing, and production environments.
- Collaborated with cross-functional teams to gather requirements and provide technical estimations for new feature development within an Agile/Scrum framework.

SKILLS

Languages – Java, Python, SQL, JavaScript

Frameworks/Libraries – Spring Boot, Spring, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Kubernetes, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R/RStudio

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Enterprise Application Support & Enhancement (HCL Technologies)

- Provided production support for critical enterprise applications, responding to P1/P2 incidents and managing SLAs for a high-availability system.
- Automated routine data extraction and reporting tasks using **Python scripting** and SQL, saving approximately **5 hours** of manual effort per week for the operations team.
- Implemented RESTful APIs in **Java Spring Boot** to facilitate data exchange between interconnected enterprise systems, improving data consistency across platforms.

Financial Operations Dashboard Development (HCL Technologies)

- Developed backend services in **Java** to process and monitor transaction flows for a financial-services operations dashboard, identifying and alerting on failed payment messages.
- Wrote complex **SQL queries** to aggregate and validate transaction data, supporting reconciliation workflows and providing audit trails for operational analysis.
- Collaborated with business analysts and operations teams to gather requirements and support User Acceptance Testing for new dashboard features.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
