PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and deployed **AWS cloud infrastructure** for enterprise clients, encompassing **EC2** instances, **S3** storage, and **Lambda** functions to meet specific business requirements.
- Developed and maintained **Infrastructure as Code (IaC)** using **Terraform** and **CloudFormation**, enabling consistent and repeatable deployments of AWS environments.
- Implemented **CI/CD pipelines** with **Jenkins** and **Git**, automating the build, test, and deployment processes for cloud infrastructure, reducing manual intervention by approximately 40%.
- Responded to and resolved complex infrastructure and application issues as an escalation point for L1 support, contributing to major incident resolution and root cause analysis for critical production systems.
- Managed and configured **IAM roles** and policies within AWS to enforce security best practices and control access to cloud resources, supporting customer security audits.
- Designed and implemented cloud networking solutions including **VPC**, **peering**, and **VPN services** to establish secure and reliable hybrid cloud connectivity for clients.
- Created and maintained comprehensive technical documentation, including architecture diagrams and operational runbooks, to support knowledge sharing and streamline support processes.

SKILLS

Cloud Platform – AWS, EC2, S3, Lambda, CloudWatch, VPC, IAM, Route53, Security Hub, Inspector

Infrastructure as Code – Terraform, CloudFormation

CI/CD & DevOps – Jenkins, Git, Docker

Scripting & Automation – Python, Shell Scripting

Databases – PostgreSQL, MySQL, Oracle

Operating Systems – Linux

PROJECTS

AWS Infrastructure Automation for Enterprise Clients

- Automated the provisioning and management of core AWS services including **EC2**, **RDS**, and **S3** using **Terraform**, enabling self-service infrastructure deployment for multiple client teams.
- Implemented robust **CI/CD pipelines** using **Jenkins** to automate the deployment of infrastructure code, reducing deployment times by an average of **35%** and improving reliability.
- Configured and managed **VPC** networking, including subnets, route tables, and security groups, to establish secure and isolated environments for client applications within AWS.

Cloud Security Hardening and IAM Implementation

- Developed and enforced **AWS security best practices**, including the implementation of granular **IAM roles** and policies to restrict access and enhance data protection.
- Assisted in customer security reviews by providing detailed documentation on implemented security controls and access management strategies, addressing compliance requirements such as **ISO 27001**.
- Utilized AWS services like **Security Hub** and **Inspector** to identify and remediate security findings, improving the overall security posture of client AWS environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
