PROJECTS

IT Service Desk Operations Enhancement (HCL Technologies)

- Enhanced the incident management process for an enterprise client's internal IT Service Desk by implementing improved **ticketing workflows** and escalation procedures.
- Developed Python scripts to automate the generation of weekly **service delivery reports**, summarizing key metrics like ticket volume, resolution times, and SLA adherence for management.
- Assisted in the configuration and deployment of new employee workstations, ensuring seamless integration with the client's existing **Microsoft Windows** environment and core business applications.

Employee Onboarding Automation & Tooling (HCL Technologies)

- Automated key aspects of the **Joiners, Movers, Leavers (JML) process** for a financial services client, reducing manual effort by an estimated **30%**.
- Configured and managed user accounts within **Active Directory** and other enterprise systems, ensuring timely access provisioning and deprovisioning.
- Created comprehensive user guides and documentation for the IT Service Desk team, detailing standard operating procedures for common support requests and system configurations.
