HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Investigated and triaged **high-severity security alerts** from **SIEM tools**, performing initial analysis to identify potential threats across customer environments.
- Responded to security incidents by executing containment procedures, including **endpoint isolation** and **log collection**, to limit the blast radius of cyber-attacks.
- Analyzed **firewall logs** and **network traffic** patterns using **Splunk** and custom scripts to detect anomalous behaviour and potential policy violations.
- Developed **Python scripts** to automate the parsing and correlation of security event data, reducing manual review time for common alert types by **30%**.
- Managed and maintained production environments for a **financial-services operations dashboard**, ensuring high availability and adherence to strict SLAs.
- Collaborated with **cross-functional teams** including operations and business analysts to gather requirements for new dashboard features and support UAT cycles.
- Performed **root cause analysis** for P1/P2 incidents on enterprise applications, documenting findings and implementing corrective actions to prevent recurrence.

SKILLS

Security Operations – SIEM, EDR, Incident Response, Threat Detection, Log Analysis, Firewall Logs, Network Traffic Analysis, Cloud Data (O365, Azure, AWS)

Programming & Scripting – Python, Java, SQL, Shell Scripting

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Splunk, Dynatrace, Jenkins, Git, Jira, Confluence, Agile/Scrum

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

PROJECTS

Security Alert Triage and Automation Platform

- Developed a **Python-based automation tool** to ingest and correlate security alerts from multiple sources, prioritizing critical events for SOC analysts.
- Implemented **custom alert enrichment logic** using historical data and threat intelligence feeds, improving the context provided for each security incident by **40%**.
- Designed and built interactive dashboards in **Power BI** to visualize alert trends, response times, and key security metrics for team leads.

Enterprise Application Production Support Dashboard

- Engineered **Java Spring Boot services** to ingest and process operational metrics from enterprise applications, feeding a centralized monitoring dashboard.
- Created **SQL queries** against PostgreSQL and Oracle databases to validate transaction data and support reconciliation workflows for a financial services client.
- Integrated the dashboard with **Splunk and Dynatrace** for real-time log analysis and performance monitoring, enabling faster incident detection and resolution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
