HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for inter-service communication, handling a daily average of **~1,500 requests**.
- Developed and maintained **Hibernate** mappings and J**PA** entities to support complex data persistence requirements for enterprise applications.
- Wrote comprehensive **JUnit** and **Mockito** tests for new Java features, increasing unit test coverage by **15%** across core modules.
- Collaborated with product managers and designers to translate business requirements into technical specifications for new features, participating in sprint planning and estimation.
- Contributed to code reviews, providing constructive feedback to peers to maintain code quality and adherence to team standards.
- Built and deployed containerized applications using **Docker**, managing image builds and container orchestration basics on **AWS EC2**.
- Managed production incident response for enterprise applications, performing root cause analysis and implementing fixes within defined SLAs, reducing critical incidents by **10%** over six months.

SKILLS

Languages – Java, Python, SQL, R, JavaScript

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, React

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java services into modern **Spring Boot** microservices, improving system modularity and maintainability.
- Implemented data access layers using **Hibernate** and **JPA**, optimizing queries that reduced average response times by **22%**.
- Containerized the modernized services using **Docker** for consistent deployment across development, testing, and production environments on **AWS**.

Financial Transaction Data Pipeline (HCL Technologies)

- Developed **Python** scripts to automate the extraction, transformation, and loading (ETL) of financial transaction data from PostgreSQL and Oracle databases.
- Engineered data validation checks and error handling within the pipeline, ensuring data integrity for downstream reporting and analysis.
- Scheduled and monitored data processing jobs using cron and basic scripting, handling approximately **5,000 transactions** per batch.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
