PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Administered holdings and market data in **proprietary software systems** to produce risk reporting for a portfolio of **ManCo clients**.
- Recorded and escalated **breaches** in line with procedure, ensuring accurate maintenance in company logs and adherence to operational risk policies.
- Maintained and updated comprehensive **documentation and backup** for all operational processes, supporting quality client service delivery.
- Expanded ownership of a set of funds to monitor **risk exposure**, handle client queries, and develop expertise in specific investment strategies.
- Participated in **User Acceptance Testing (UAT)** of proprietary software, reviewing and querying existing methods to enhance team efficiency.
- Managed the **Document Execution Form (DEF) workflows** for board resolutions and agreements, ensuring timely director execution and follow-up.
- Collaborated with colleagues across different locations and time zones to ensure seamless client service delivery and knowledge sharing.

SKILLS

Financial Services Domain – Fund Administration, Accounting, Financial Reporting, Auditing, Risk Reporting, Investment Compliance, Economic Substance, ManCo Clients, Portfolio Management, Operational Risk

Tools & Software – Bloomberg, Microsoft Office Suite, Salesforce, Proprietary Software Systems, Jira, Confluence, Jenkins, Git

Data Management & Reporting – Database Maintenance, Data Analysis, Risk Analytics, Market Data Administration, UAT

Client & Stakeholder Management – Client Relationships, Client Service Delivery, Client Queries, Stakeholder Communication, Regulatory Projects

Process & Operations – Document Execution Form (DEF) Workflow, Change Management, Process Documentation, Escalation Procedures, Quality Control, Onboarding

PROJECTS

Financial Risk Reporting System Enhancement

- Developed Python scripts to automate the ingestion and processing of **market data** from external feeds for a financial services operations dashboard.
- Implemented enhanced **transaction monitoring** logic within Java Spring Boot services to identify and flag non-compliant activities, reducing manual review by **15%**.
- Designed and deployed **SQL queries** on PostgreSQL to generate daily risk exposure reports for a portfolio of enterprise clients.

Client Data Management & Operational Efficiency

- Automated the update of client holdings and market data in **proprietary systems** using Python scripting, reducing manual entry time by approximately **2 hours per week**.
- Created **Power BI dashboards** to visualize key risk metrics and client compliance status, enabling faster identification of potential breaches for operational teams.
- Documented operational processes for client engagement files and DEF workflows, improving onboarding efficiency for new team members.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
